Issued Weekly

Boston, Massachusetts · issued building permits · 2026-11-15 to 2026-11-21

This is a sample list of residential kitchen and bathroom-relevant jobs, drawn only from the City of Boston's official Approved Building Permits open dataset (https://data.boston.gov/dataset/approved-building-permits). The dataset is published under the Open Data Commons Public Domain Dedication and License (PDDL). The extract covers permits with an issued date from 2026-11-15 to 2026-11-21. The city's file was last updated on 20 November 2026, so the newest issued date in this extract is 2026-11-20. Nothing has been invented. Applicant names were not used. Phone numbers and email addresses appearing in a proposal have been redacted.

Counts. 667 permits were issued in the window; 480 were on 1–4 family, multi-family or mixed occupancy; 74 met the kitchen/bathroom trade rules; 73 remain after combining multiple trade permits at the same address and unit. Trade rules keep kitchen or bathroom remodels, new bathrooms, cabinet/worktop replacements, and residential additions, dormers or attic conversions that typically need a new or relocated kitchen or bathroom. Solar, EV chargers, garage/deck-only work, window-only jobs, office kitchens, and single-fixture electrical or fan work are dropped. An issued permit often means a contractor is already on the job; this list is a public-record signal, not a guarantee that the homeowner still needs a designer or fitter.

Portal links go to the City of Boston Permit Finder. This sample is not a City of Boston product and the city makes no warranty as to fitness or completeness.

1. 50-56 Broadlawn PK, West Roxbury, MA, 02467
